About this guide

This Luxaflex® guide is designed to help you choose the perfect outdoor shading for your windows, doors, and open spaces.

Innovation has been at the heart of everything we do for 75 years – and that extends to outdoors. Explore a wide range of durable materials, weather-resistant designs, and smart control options that combine style with performance for every outdoor setting.

Luxaflex® Outdoor

Transform and extend your outdoor living spaces with Luxaflex® outdoor products. Designed for durability and elegance, our range offers superior sun protection, privacy, and comfort—perfect for patios, gardens, and balconies.

With innovative designs and premium materials, Luxaflex® helps you create a functional indoor, outdoor living space that works perfectly for you.

Enjoy a seamless experience and outdoor solutions tailored perfectly to your space.

Choosing the perfect outdoor shading should be simple - and with Luxaflex®, it is. Your local expert can guide you through our extensive range and provide a personalised service that takes care of everything - from precise measuring and easy ordering to professional fitting, with a 5-year guarantee.

Innovation that endures

For 75 years, Luxaflex® has set the standard in design and innovation. Every outdoor product is crafted for lasting performance and effortless style—combining advanced technology with premium materials. From weather-resistant durability, UV protection, smart motorisation, and energy efficiency to low-maintenance design, our solutions deliver practical benefits that enhance your outdoor living experience.

Enjoy your outdoor areas in comfort all year round with the stylish, practical Luxaflex® Outdoor range.

Sustainable style

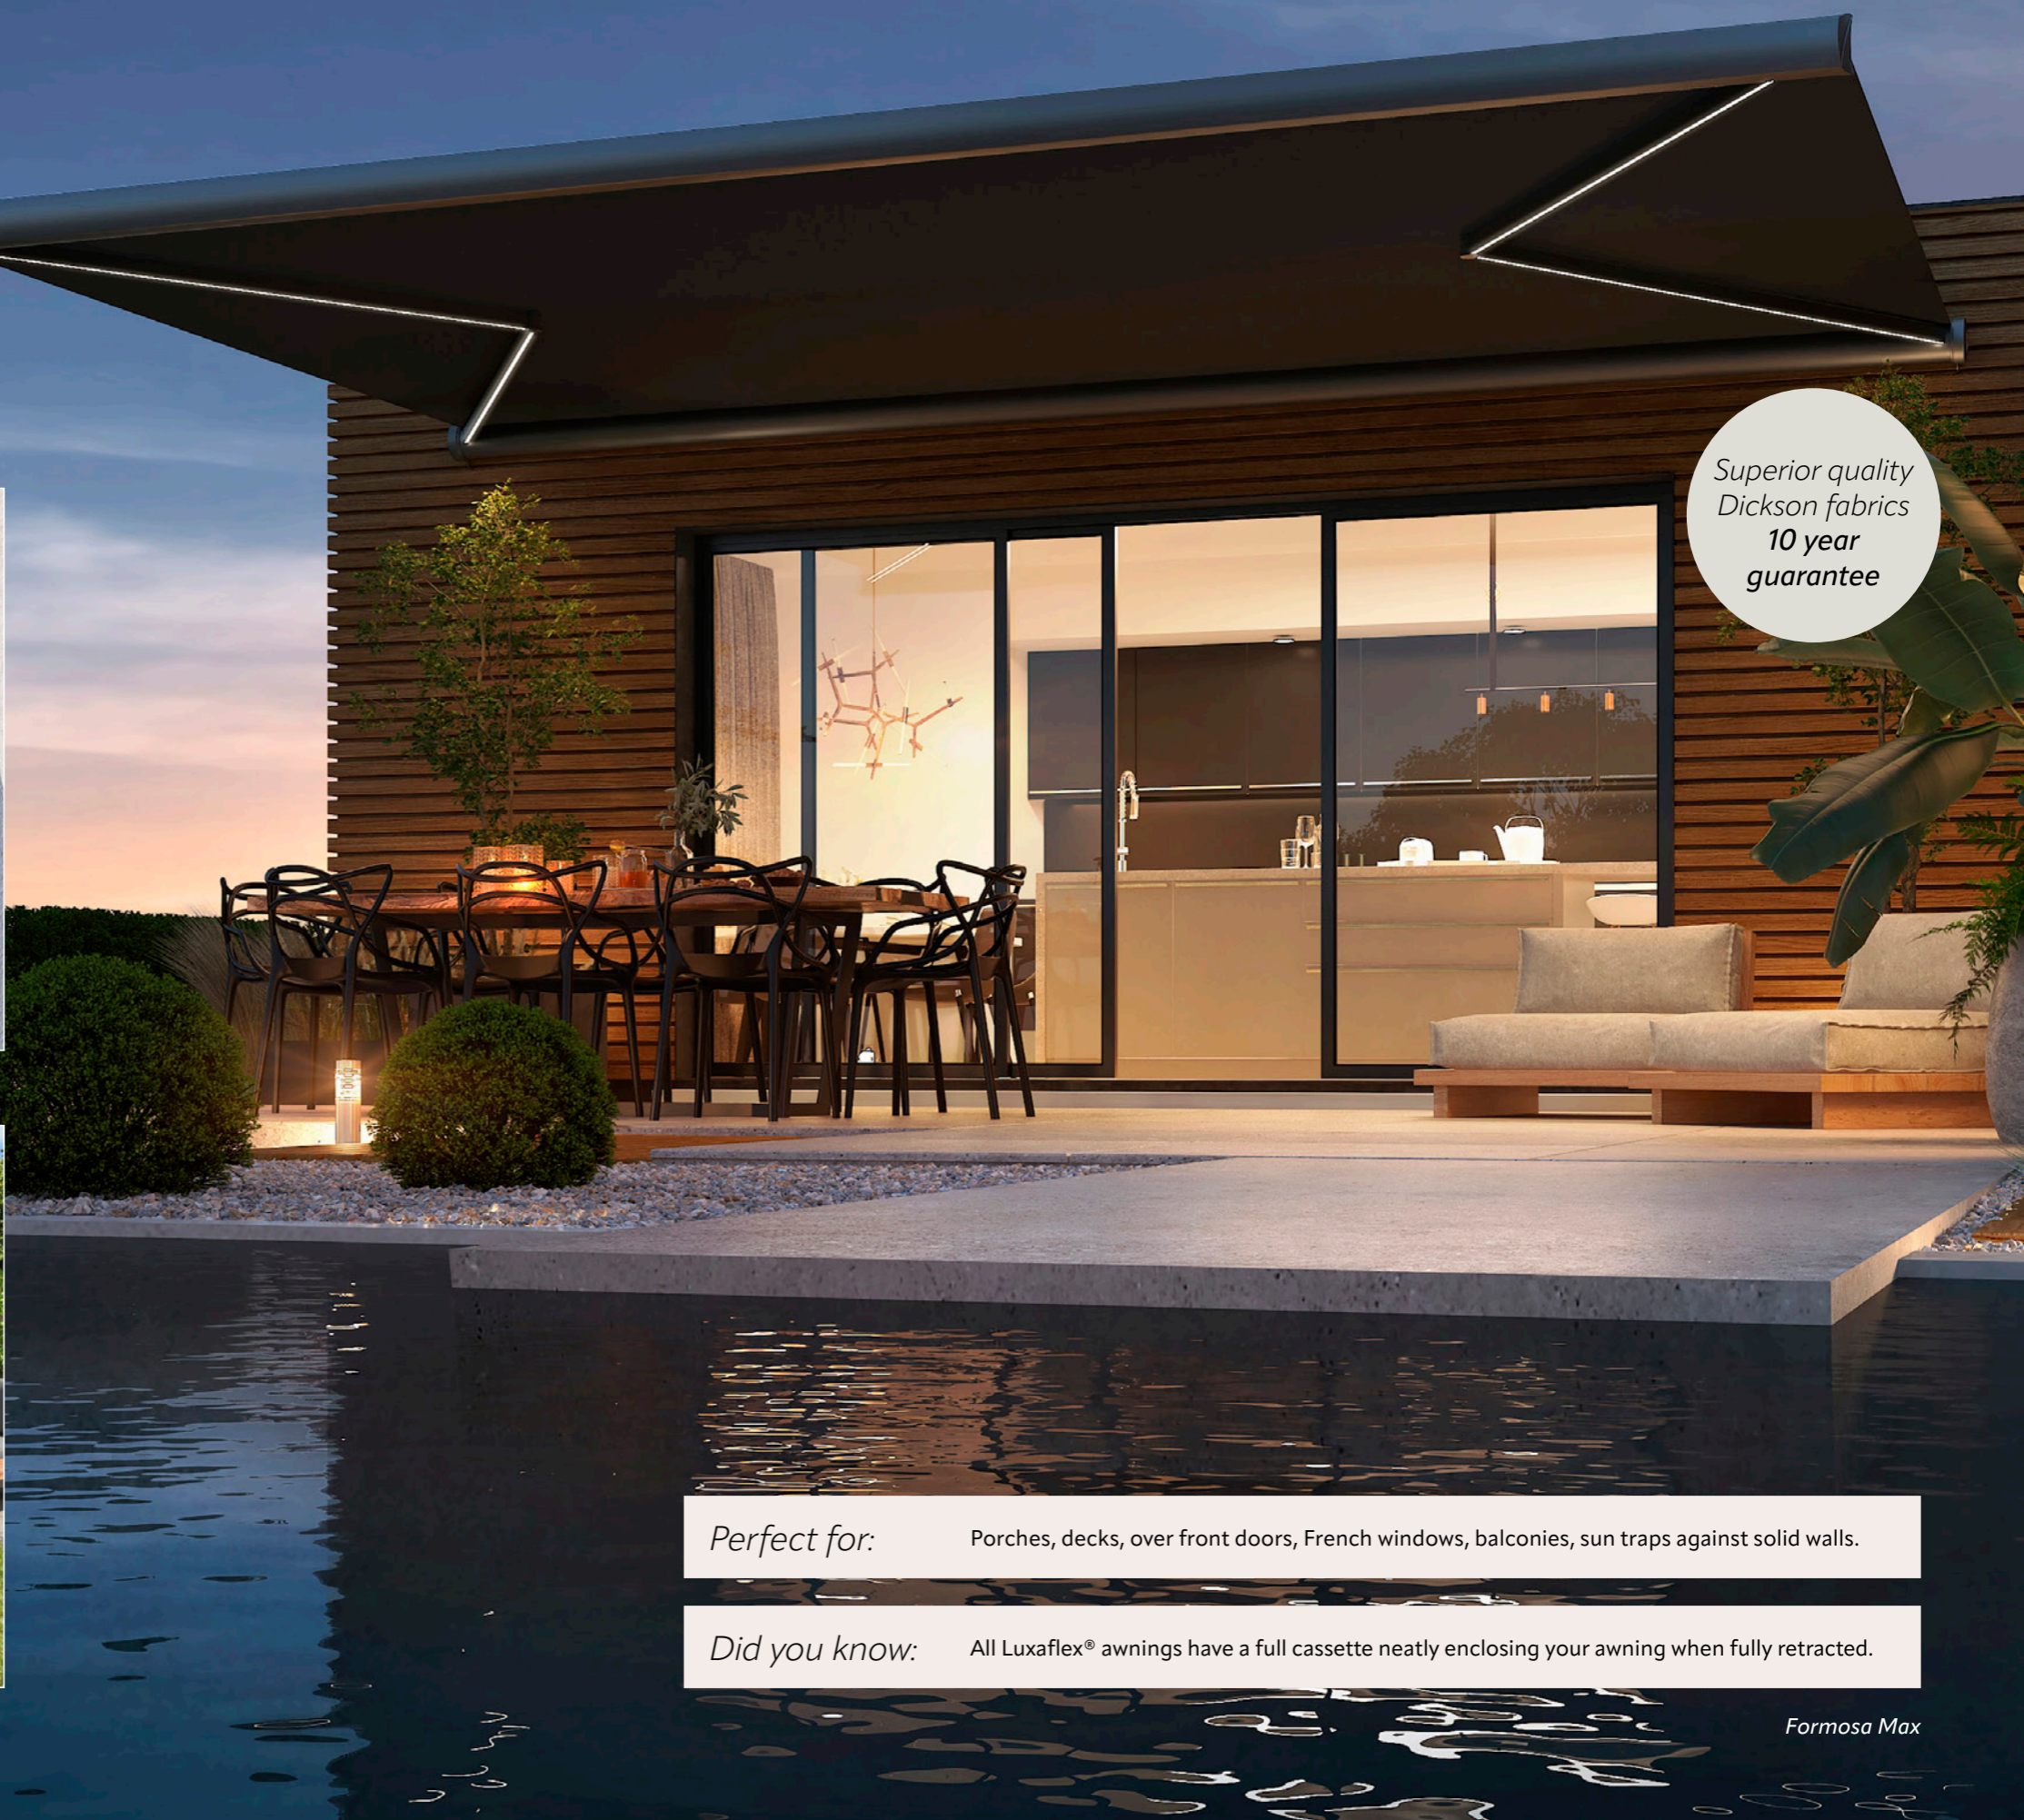

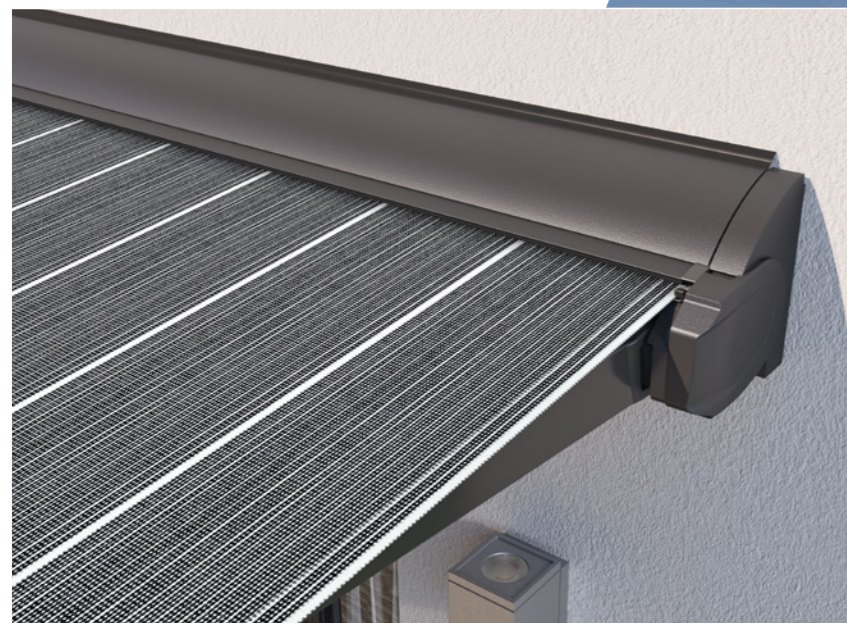

At Luxaflex®, we believe beautiful style should be responsible. That's why most of our products are crafted with sustainability in mind, from utilising Dickson fabrics, to energy-efficient designs that help regulate indoor temperatures. It's a smarter way to style your home, with benefits that go beyond the window.

Awnings

Custom-made Shade

Transform the way you use your garden with our custom-made shade for your outdoor space.

Our made-to-measure, full cassette awnings let you enjoy the outdoors year-round.

Superior quality
Dickson fabrics
10 year
guarantee

Perfect for: Porches, decks, over front doors, French windows, balconies, sun traps against solid walls.

Did you know: All Luxaflex® awnings have a full cassette neatly enclosing your awning when fully retracted.

Custom-made Shade

Capri

Key Features:

- *Tailored Design:*
Every Luxaflex® awning is made to measure, ensuring a seamless fit and a considered finish for your outdoor space.
- *Exclusive Fabric Collection:*
Dickson fabrics are engineered for solar protection — they can block up to 95 % of heat and glare and depending on colour, 90 %–100 % of harmful UV rays, keeping outdoor spaces and interiors cooler and more comfortable.
- *Advanced Colour Protection:*
Fabrics are made from solution-dyed acrylic fibres meaning the colour goes right into the fibre itself instead of just sitting on the surface. That gives them exceptional resistance to UV fading and weather damage, so colours stay bold year after year.
- *Effortless Operation:*
Motorised options using Somfy io motors. The technology provides real-time feedback and precise control, meaning your awning moves smoothly, stops accurately and can hold preferred positions with the simple press of a button.
- *Engineered Durability:*
Awnings feature robust aluminium frames in 10 sleek colours. Fabrics, from stripes to block colours, are tested and treated to stay bold and vibrant, and the complete system comes with a 5-year guarantee.
- *Intelligent Sun Protection:*
Awnings provide reliable shade and sun protection, with optional wind and sun sensors for automatic adjustment and enhanced comfort.

Monarch

Awnings

External Screens

Manage and Transform Light

Effortlessly balancing comfort and style, Luxaflex® RS Smart and RS Classic outdoor screens are designed to enhance the way you live - inside and out. By blocking sunlight before it reaches your windows, these screens help create a cooler, more private home environment, all while preserving your view.

Key Features:

- **Sun Protection:** Blocks sunlight before it reaches the glass, helping to keep interiors cooler and more comfortable.
- **UV Defence:** Reflects and filters up to 80% of harmful UV rays to protect furnishings and flooring.
- **Long-Lasting Colour:** Advanced, fade-resistant fabrics maintain their colour and appearance over time.
- **Weather Resistance:** Weather-resistant construction designed to withstand wind, rain, and sun.
- **Sleek Design:** Sleek, integrated design for a refined look on modern façades and large windows.
- **Custom Fit:** Custom-made to fit a wide range of window and door sizes, including large glass expanses and patio doors.

Perfect for:

Large glass façades, patio and sliding doors, floor-to-ceiling windows, terraces and balconies, modern extensions and garden rooms.

Did you know:

External screens reduce incoming heat by up to 90%.

External Screens

Key Benefits

Product Name	Maximum Dimensions	Control Options
RS Smart 85	4 mtr x 6 mtr	Motor
RS Smart 100	5.4 mtr x 5 mtr	Motor
RS Smart 130	6 mtr x 2.8 mtr	Motor
RS Smart 150	7 mtr x 6 mtr	Motor
RS Classic 85/95/105	4.5 mtr x 3.5 mtr	Motor
Angled Screen	3.5 mtr x 2.5 mtr	Motor

All external screens provide some key benefits including:

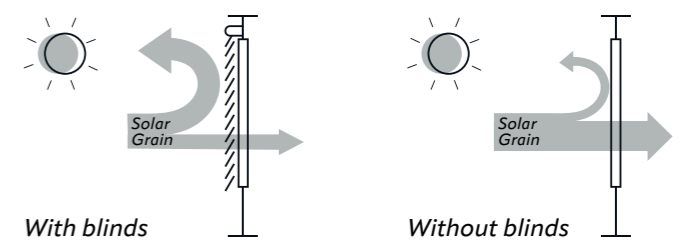

- Optimising room temperature by keeping up to 90% heat out of a room.
- Extending the lifetime of internal furnishings decreasing UV damage by 99%.
- Room-darkening fabrics help reduce glare and enhance visual comfort throughout the room.

Somfy motor - 10 year guarantee

How do external blinds reduce overheating?

Using external blinds during the daytime reduces the solar gain entering the building and reduces internal temperatures.

Pergolas

Extend your outdoor living

Where refined design meets everyday ease. The Matera Pergola and V150 collections are thoughtfully crafted to create a seamless transition between indoors and out, offering flexible shade and shelter in every season.

Freestanding by design, these pergolas can be installed in multiple locations throughout your garden, giving you the freedom to create inviting spaces wherever you choose.

Available in either a solid louvred roof or a retractable fabric roof allowing you to easily adjust shade and light to suit your space. Additional side panels are also available for added comfort and protection.

Perfect for:

The centre of your garden, patios and terraces, beside a pool, next to the house, over outdoor bars and landscaped garden zones.

Did you know:

Our pergolas can be fitted with side screens for year-round use.

Key Features:

- **Freestanding Flexibility:** Designed to stand alone, Luxaflex® pergolas can be installed wherever you need shade and shelter in your garden.
- **Tailored Design:** Each pergola is made to measure, ensuring a seamless fit and a refined finish for your outdoor space.
- **Elegant Finishes:** Choose from a curated selection of colours and finishes to complement your home and landscape.
- **Effortless Operation:** Smooth, easy-to-use mechanisms allow you to adjust shade and airflow with minimal effort.
- **All-Weather protection:** Robust with integrated drainage, weather-resistant materials.

Pergolas
